PREVENTION IS BETTER THAN CURE

Dear Parent

Greetings !

I would like to bring it to your notice that currently the air quality in Delhi has fallen under hazardous category posing high risk to everyone, especially children. Keeping this in mind, we have cancelled the outdoor activities for the time being. Morning assembly will also be conducted inside (Hall / Classroom).

Our medical room is equipped to deal with symptoms of uneasiness or giddiness in children. It is also advisable that your ward wears a protective mask while commuting to school. Walking & running outdoors should be avoided till the smog lifts.

Health is our most important asset and we must try to take good care of it !

Warm regards

Dr. Amita Saxena
(Principal)
